# IGNORE DEMAND THE CAMPAIGN OF LOWER HOUSE IN THE FL

Czar Decides to Swallow Parliament's Affront and to Retain Present Ministry.

POLICY OF CONCILIATION

No Amnesty to Be Granted, But Political Prisoners Will Be Released.

(By Associated Press.) ST PETERSBURG, May 29.4-As forc-shadowed in the statement made by Minteter of Agriculture Stichinsky to the Associated Press last night, the govern-Associated Press last night, the government has decided on it scourse of action with reference to the vote of lack of confidence of the lower house and its demand for the resignation of the ministry—it will swallow Parliament's affront and treat its resolution simply as a declaration beyond its competency and consequently, as not binding upon the monarch. In other words, the government has decided to ignore the demand of the lower house and the ministry will not resign, but neither will Parliament be dissolved.

Moreover, instead of treating the action

not resign, but neither will Parliament be dissolved.

Moreover, instead of treating the action of the lower house as cause for offense, the ministry will continue its conciliatory attitude, in the hope that the storm will subside, and unless Parliament takes some revolutionary action the original plan of prolonging the session until it is time for the summer vacation, at the end of June, will be carried out. In the meantime, the government will offer its own projects for the solution of the agrarian question, etc., and if they are rejected, the lower house will be allowed to elaborate its own projects. No amnesty will be granted, but the political prisoners will be released as rapidly as possible.

House Much Calmer. House Much Calmer.

The spirit of the lower house was much calmer to-day. M. Naboukoff, the leader of the constitutional democrats, presented an Interpellation demanding to know who was responsible for the provocative black hundred telegrams printed in the Official Messenger since the assembling of parliament. The interpellation asks specifically whether they were printed with Premier Goremykin's permission and it so, what was the purpose of their publication.

so, what was the purpose of their publication.

Michael Stakovich, a marshal of the nobility of Orel, and Count Heyden, a marshal of the nobility from St. Petershurg, while supporting the interpellation objected to the statement that such publications were shaking the authority of the Emperor, to whom they were addressed, and upon their request the words referred to were withdrawn and the interpellation was unanimously adopted.

A long discussion of the famine existing in several districts followed, during which the government was most severely denounced for its refusal to help the peasants who had participated in Agrarian disorders.

Other speakers charged the government with being responsible for all the Agrarian disorders. Several of the orators were so vehement that the president called them to order.

years with neuralgia, which attacked her heart, and which did not yield to the usual remedies. The story of the cure is best told in her own words. She says:

"I had scarlet fever, and it left me with a weak heart. Then I took cold and a severe pain settled in the region of my heart. My suffering was almost beyond description. I could not talk, sand the pain caught me at every breath. The awful pains would come on suddenly, and I would have to sit right down. I could not walk, and would get dizzy for a time.

"I was confined to bed for four weeks at one time, and nothing somed to do me any good. I was under a physician's care for months. He pronounced my trouble neuralgia of the heart, and prescribed for me. The capsules he gave me relieved me for a time, but the pain came back again.

"Finally Dr. Williams' Pink Pills were recommended to me by a lady whose husband had been cured of paralysts by them, and I deelded to give the pills a good trial. While I was on the second box I began to see an improvement, the pains became less frequent, and at last I was entirely cured. This was some time ago, but I have had no relapse, and have been in good health ever since."

Dr. Williams' Pink Pills are sold by all druggists or sent, postpaid, on receipt of price, 50 cents per box; six boxes 12.50, by the Dr. Williams' Medicine Company, Schenectady, N. Y.

the knife which had caused the cut. The only edged tool which he was able to nind was a ruzor that was in a box and packed in the corner of his suit case. It apparently had not been disturbed. The towel around Dr. Sayers's arm was slightly bloodstained, and no stains were apparent on the carpet or bed clothing. It is not thought that he could have possibly returned the razor to the box after cutting the wrist without staining something with blood. The razor was perfectly clean and no cloth could be found on which it had been wiped. The blood in the washbowl under the bed was absolutely dry. The bowl had been pushed well under the bed.

Detectives working on the case did not believe that the man having lost the amount of blood in the bowl would have the strength to push it so far under away from the edge. They declared also that he would have been unable to fire the shot. It had apparently been fired directly downward, and went entirely through the body, making a hole in the lower sheet after it left the body. The would did not bleed.
